**Course Description:** This course seeks to introduce microeconomic analysis as a way of understanding the world. It exposes students to standard microeconomic theory with a focus on the development of economic intuition, whilst also providing certain economic tools that support this intuition along the way.

The microeconomic mind-set helps students thinking about issues that are relevant empirically and for policy.

**Prerequisite(s):** Principles of Economics.

**Textbook:** Microeconomics by Hal Varian, 9<sup>th</sup> edition.

**Note(s):** A minimum grade of 10 is required in this course to pass.

**Credit Hours:** 21
